

Solar and wind companies Wallis and Futuna

China's installed capacity of wind and solar power reached 820GW at the end of April, accounting for 31% of the country's total installed power generation capacity, China Electric Power News reports. According to the state-run industry newspaper, of the 31% combined renewables capacity, 14% comes from wind power and 17% from solar tween January and ...

The UK's Green Nation has unveiled plans for a solar and energy storage project, aiming to contribute up to 750MW to the country's National Grid. Called Whitestone Solar Farm, the solar facility is located between Rotherham and Doncaster in South Yorkshire and is in the preliminary stages of development.

China's installed capacity of wind and solar power reached 820GW at the end of April, accounting for 31% of the country's total installed power generation capacity, China Electric Power News reports. According to ...

Total Eren and Chariot Transitional Power have announced a partnership with mining firm First Quantum Minerals (FQM) to build a 430MW solar and wind project in Zambia. Bloomberg reported that the two companies are funding and building the \$500m renewable energy project. They will also jointly operate it once it is completed.

In wind and solar farms, eco-friendly solutions, such as robotic cleaning and water-efficient technologies, help maintain equipment without harming the environment. Solar panels are often cleaned with automated systems that reduce water usage, while wind turbine blades benefit from non-abrasive, biodegradable cleaners.

See how our wind turbine and solar combinations can help you this season. [View More. COMMERCIAL.](#) The only way to keep the lights on in your company is to go green. There are many other benefits to your company by going solar today. [View More. RESIDENTIAL.](#) Work-from-home entrepreneurs and homeowners are going solar. See how we can help you too.
