

Why should a student use solar+?

SOLAR+also allows both the student and sponsor to check the application status online and facilitates the sponsors to print the In-Principle Approval (IPA) letter for the student to collect his/her STP. 7. Users will have another reason to smile as SOLAR+offers convenience to them at no additional costs there is no change to the current fee!

Why is E-appointment better than solar+?

With e-Appointment,the student's time is better managed as the waiting time is much shorter. SOLAR+also allows both the student and sponsor to check the application status online and facilitates the sponsors to print the In-Principle Approval (IPA) letter for the student to collect his/her STP.

What approvals do you need for solar PV installation?

The Qualified Person may need to get approval from different government authorities depending on what the consumer needs. For example, they may need approval from BCA for structural safety, the Urban Redevelopment Agency for planning permission, SCDF for fire safety and CAAS for aviation zones for the solar PV installation.

What if I have less than 1mwac of embedded solar?

Non-contestable consumers with less than 1MWac of embedded solar capacity If you have less than 1MWac of embedded solar capacity and are a non-contestable consumer, you need to register with SP Services under the Simplified Credit Treatment Scheme to sell your excess solar-generated electricity.

Despite its immense power, humanity has grappled with tapping into its potential in the modern era. Converting solar energy into electricity requires a device called a solar cell. For many years the high cost and low efficiency of solar technology limited its ...
