If you're interested in installing a solar energy system or would like to know more about how solar could benefit you, call us today on 07909 950239 to ...

OverviewSolar potentialHistoryResidential solar PVLarge scale solar power parksPlanning considerationsGovernment programmesFutureSolar power has a small but growing role in electricity production in the United Kingdom. There were few installations until 2010, when the UK government mandated subsidies in the form of a feed-in tariff (FIT), paid for by all electricity consumers. In the following years the cost of photovoltaic (PV) panels fell, and the FIT rate...

Local special circumstances: In the United Kingdom, the Solar Energy market is influenced by the country's diverse climate, which presents both challenges and opportunities for solar adoption. The regulatory framework, including feed-in tariffs and the Smart Export Guarantee, encourages homeowners and businesses to invest in solar technologies.
