Grid Tied Solar System This system can be connected directly on the grid (NamPower, Municipal or Erongo Red). The excess power that is generated by your system will be transferred into the Grid and your electricity consumption will be reduced during day time and you will be able to use the grid power during night time.

Then later NEC extended its Pumping portfolio and added bulk water storage and solar water heating and Solar PV electric to our offerings. Today offering the full basket of Sales, Engineering and Service on our four main product lines ... mainly with John Deere motors, as well as uninterrupted power supply (UPS) units and batteries sourced from ...

Solar Panel and Roof Top Tent Promotion | Established specialist. Explore the website and browse through our full range of offers. ... We are situated at 1191 Harold Pupkewitz Street Windhoek Namibia with

dealerships throughout Namibia. We are open 5 days a week, Monday to Friday from 08h00 to 17h00. ... We have a huge selection of new and used ...

Electric Vehicles Namibia is an importer of electric cars to Namibia, especially Nissan Leafs. The team is made up of highly qualified electrical engineer. +264 81 473 6944. info@electricvehiclesnamibia . Home Cars Info ...

A solar inverter or PV inverter, is a type of power inverter which converts the variable direct current (DC) output of a photovoltaic (PV) solar panel into a utility frequency alternating current (AC) that can be fed into a commercial electrical grid or used by a local, off-grid electrical network. It is a critical balance of system (BOS)-component in a photovoltaic system, allowing the use ...

The SQFlex family is an environmentally-friendly water supply solution. SQFlex pumps are fitted with a permanent magnet motor which enables the efficient use of energy from nature. The pump system offers the perfect water supply solution in remote areas where water is scarce and the power supply is non-existent or unreliable.

We specialize in designing, supplying, and installing tailor-made solar systems for residential, commercial, and industrial applications, as well as solar water systems for irrigation. We are also the sole battery repair agent for Blue Nova ...

Solar Pumping. It's one of the big success stories in Namibia, where renewable energy - Wind Motor Pumps - were being used for generations to pump water. Despite its availability for over 100 years, wind installations in the interior of Namibia nearly always require big reservoirs and additional backup solutions.

Our SOLAR MOTORS AND PUMPS are now available at selected Kaap Agri Namibia branches. (Windhoek, Gobabis, Stampriet, Aranos, Keetmanshoop, Omaruru, Otjiwarongo, Hochfeld) What makes our pumps unique to the market?? ?? ? It runs on a DC motor, does not require and Inverter and our controller allows for DC or AC input.
