On a macro-economic level, energy costs are of great concern for the Government of Sint Maarten. In 2012 Sint Maarten spent a total of NAf 264.8 million on importing of oil products, which comprises a remarkable 18% of the total GDP1. This shows the heavy dependency on imported oil for Sint Maarten, and its country's vulnerability as this ...

Investors not living and working on the island will find it a bit more difficult to get local bank financing. Most property is sold for cash, but owner financing is frequently available as well. There are now private sources of funding available, but interest rates for both bank and private mortgages are not as attractive as in the US, Canada or the European countries.
