China Blue Solar actively adopts the latest solar technologies to deliver innovative solar solutions to the market. Our experienced R& D team and manufacturing capabilities allow us to offer optimized solar panel designs and custom sized solar panels to power our clients' innovative application products.

Most U.S. solar manufacturing is that last part of the process: Panel assembly. The only operational solar cell manufacturing in the United States is Suniva, which currently has 1 GW of capacity. It is unclear where Suniva sources its wafers, but roughly 98% of all solar wafers are produced in China.
