Organization: Sankou Solar Mongolia Co.,Ltd. Website: Email: info@sankousolar . Introduction: Our company started trading on Sankou Seiki's business on January 1, 2011, in the field of solar trading and ...

Even if what you do works (sounds risky to me), you won't be subjecting the panel/cells/soldered connections/buswork to actual sunlight and the resultant (significant) heating from it. Most panel failures are due to connections et. al. than the cells themselves. If the panels are cheap enough, just buy 'em and suck up the potential bad ones.

Solar warehouse space near your projects is vital to your business, whether you operate in one zip code or across the continent. We know finding the right blend of location, solar expertise, efficiency, and cost can feel impossible, but getting it right is essential to your profitability.

In many ways, a typical warehouse roof offers the ideal landscape for hosting a solar power system. Not only does it have plenty of square footage to support a lot of solar panels, but it's also high enough off the ground that shade usually ...

In many ways, a typical warehouse roof offers the ideal landscape for hosting a solar power system. Not only does it have plenty of square footage to support a lot of solar panels, but it's also high enough off the ground that shade usually isn't a problem. Further, most warehouse roofs are pitched perfectly for catching the sun's rays at various points throughout the day.
