

Will Belize Electricity compensate you for excess solar energy?

The hope is that through regulations, Belize Electricity Ltd will have to compensate you for excess solar energy flowing to the grid during the day and off-set it against the electricity you are drawing from the grid at night; however, the reality today is the opposite.

Who is pro solar engineering?

Pro Solar Engineering is the only company in Belize to offer all 3 major renewable energy sources-solar, wind and hydro power, including hybrid systems. Packages are designed to offer you a cost-effective and efficient solution for your off-grid and grid-tie living needs.

A solar electric "system" consists of, 1) a solar panel 2) a charge controller 3) a battery. This is all Direct current (DC). If you wish to power something in your grid connected home you will need to convert this DC into AC (alternating current). This is done via an 4) inverter. In Belize, we cannot, at this time, connect this to the grid's ...

Plenty Belize has been a leader in solar technology work in the Toledo District. Since the early 2000's numerous solar electric systems have been installed in village schools, clinics and homes. In recent years the solar program has involved rural Mayan women, challenging cultural and gender assumptions.
