You OWN the solar panels. Under these schemes, you pay for solar panels over a fixed period, say 20 years. There are no upfront costs, and instead you pay a monthly fee ...

Government on Tuesday officially launched the long-awaited energy bounce-back loan scheme for solar. The aim is for small businesses and households to have finance for solar PV systems so that they can overcome load shedding. The scheme, which runs till 30 August 2024, aims to add 1 000MW in additional generation capacity.

The London Borough of Hackney has unveiled a new solar scheme which could save council tenants money on their energy bills. From January 2025, 28 blocks across three Hackney Council housing estates will have a total of 4,000 solar panels installed, giving 800 households the opportunity to benefit from cleaner and greener energy.

The Energy Company Obligation scheme transitioned from ECO3 to ECO4 in Summer 2022. The ECO4 scheme, which is due to run until the end of March 2026, allows eligible households to apply to have a combined solar panel and heat pump bundle installed, with the possibility of them being fully-funded.

"Rent-a-roof" solar panel schemes were another name for solar installations that required a roof lease, meaning homeowners had to give a solar company the rights to their rooftop or the airspace above it for up to 25 years. They exploded in popularity after the government introduced the Feed-in Tariff in 2010.

In total, the scheme enabled energy-saving improvements to 4,364 homes, meaning 18.3% of the scheme's recipients went solar. Eco-friendly central heating systems made up the vast majority of measures.

"Rent-a-roof" solar panel schemes were another name for solar installations that required a roof lease, meaning homeowners had to give a solar company the rights to their rooftop or the airspace above it for up to 25 years.

...

The type of solar panels that are permitted. The appropriate placement or location of the solar panels. A list of preferred contactors to install the solar panels. Clearly establish who is responsible for the maintenance and repair of the solar panels. Conclusion. It goes without saying that solar panels can be unsightly in sectional title schemes.
