Introduction to Solar Water Pumps. Solar water pumps harness the power of the sun to pump water from wells, rivers, or reservoirs, offering a sustainable alternative to traditional electric or diesel-powered pumps. Ideal ...

More ranchers every year make the switch to solar for their wells. We know why. We used to haul water and climb windmills too and it sucks. 94% of ranchers that switched to an RPS Solar Pump this year said they won't ever go back to paying an electric bill, repairing windmills, running a generator or hauling water. Lifetime Value that blows the others out of the water.
