

Are solar panels a good choice in Belgium?

We quickly realized that the quality of solar panels available in Belgium was uneven. Faced with this observation, we invested in quality control equipment for solar panels. This led us to seek more reliable and sustainable solutions for our customers. In 2012, we took a major step by becoming manufacturers of photovoltaic panels.

Why should you choose Belga solar?

Belga Solar offers the most efficient, reliable, and sustainable photovoltaic solution on the market. YEARS! WHY CHOOSE BELGA SOLAR? At Belga Solar, we offer you more than just solar panels; we provide a complete energy solution.

How has Belga solar changed over the years?

Since then, our production capacity has significantly increased, from 2,000 panels in 2012 to over 100,000 panels in the past three years. From a few people in 2012, Belga Solar, formerly Evocells, now employs over 30 people. We have expanded our infrastructure and invested in cutting-edge technologies.

Is photovoltaic a good investment in Belgium?

Today, photovoltaics is an affordable investment for all Belgian households. The price of panels has fallen sharply over time (divided by 6 in 10 years!). Today's banks are ready to finance photovoltaic projects thanks to their long-standing proven profitability.
