

Where is Solarge based?

Solarge is based in Eindhoven. They use the extensive network of high-tech companies in the area and have an R&D/production facility there. Solarge is currently developing a fully automated production line for volume production, which will be commissioned in mid-2021.

Will Solarge expand in the Netherlands?

Solarge anticipates strong growth in the Netherlands for solar integration. This growth encompasses several dimensions: esthetic integrations in the built environment, proper integration into the electricity grid, and cost reductions necessary for future expansion.

What is Solarge and why is it important?

Solarge is a company that started the development of lightweight photovoltaic (PV) modules with the support of Heijmans, Research Institute TNO, Solar Research Institute Solliance, and petrochemical manufacturer SABIC. It is important because of this innovation in lightweight PV modules.

Solarge maakt bewust gebruik van materialen die het gewicht van de zonnepanelen minimaliseren. Met slechts 5,5 kg per m<sup>2</sup>, in tegenstelling tot de 11 kg per m<sup>2</sup> bij conventionele zonnepanelen, bieden SOLO zonnepanelen een aanzienlijke gewichtsbesparing zonder concessies te doen aan prestaties.
