

Who is Solinc solar?

Solinc partners with Trina and Jinko solar in the distribution of Tier 1 PV solar modules to East and Central Africa. Our panels meet all international standards and this protects your investment from substandard products sold in the market. We bring almost ten years of experience in Solar and Solar Manufacturing to our clients.

Where can I buy a photovoltaic system in Poland?

Prologis Park Warsaw II, Hala DC2, ul. Staniewicka 5, 03-310 Warszawa Export Customer Service ... Solfinity, formerly Soltec, has been co-creating the photovoltaic market in Poland for over 16 years, providing high-quality components and the best PV solutions to companies that design, assemble, and service photovoltaic installations.

How big is the photovoltaic market in Poland?

The Polish photovoltaic market is one of the biggest in Europe. Out of 41.4 GW of total photovoltaic capacity installed in 2022 almost 5 GW was installed in Poland. This demonstrates the unwavering growth of investment in solar energy in Poland. Only Germany and Spain report a faster photovoltaic industry growth rate.

Who makes SunPower solar panels?

SunPower modules are manufactured and sold by Maxeon Solar Technologies, a global leader in innovative solar energy solutions. Since 1985, over 30 million SunPower panels have been installed in over 100 countries around the world. The unique design of SunPower modules provides exceptional durability and resistance to mechanical stress.

Who makes Solis inverters?

Combining a global supply chain with world-class R&D and manufacturing capabilities, Ginlong optimizes its Solis inverters for each regional market, servicing and supporting its customers with its team of local experts. WHY CHOOSE INVERTERS SOLIS? Photovoltaic inverter - what is it and how does it work?

Who is SunLink PV?

SunLink PV was one of the first Chinese manufacturers to start producing silicon modules- the company was established in 2004. Since then, it has been providing technology to ensure sustainable development and create solutions intended for renewable energy. 4 years after its founding, the company entered the European market.
