

What does Soluna do?

Soluna is on a mission to solve one of renewable energy's biggest challenges: wasted power. Our data centers convert excess solar, hydro, and wind energy into productive computational work, such as Bitcoin mining, artificial intelligence, and machine learning.

What is a Soluna power bank?

Soluna power banks are designed to provide you and your family peace of mind in the event of a power outage. Our power detection system will sense outages in real-time. Download our catalog and get a deeper look at our battery banks. Most energy produced occurs mid day, while peak power usage happens in the morning and evenings.

Why should you choose Soluna?

Soluna helps the environment, provides security, and delivers independent reliable power. Our brand stands for power delivered day and night. A curved cut and subtle gradient within the "O," denotes the cycle of our sun and moon. 24 hours a day our products AND our team work to bring low cost, reliable, well designed battery solutions.

Are Soluna batteries any good?

George and the Soluna team have been great to work with. We have been developing a few solutions together of the past few years and we have loved every minute of it. They have been terrific and their products are top notch. I have been extremely happy with the battery unit I received and its performance.

What is a Soluna MDC?

Soluna's MDCs are built with 72" diameter fans. These colossal fans are engineered to create unparalleled airflow, maximizing cooling efficiency with minimal energy consumption. We've achieved Power Usage Effectiveness (PUE) rating below 1.02, meaning almost all the energy consumed goes directly to computing.

Why did John Belizaire co-found Soluna Holdings?

When John Belizaire co-founded Soluna Holdings in 2018, it was with a very specific purpose in mind. "We set out to develop renewable energy on the African continent," he says.
