It includes a focus on renewable energy sourcing. We believe that any renewable energy sourcing roadmap should begin with a dual assessment - internal and external. The former aims at building an understanding of clients' global energy consumption and trends (by region, by usage), and how they manage energy procurement.

o October 2023: Alfanar consortium shortlisted for 1.2 GW PV tender by the Renewable Energy Project Development Office. (Source: Saudi Arabia Energy) Riyadh Renewable Energy Co: o October 2023: Riyadh Solar PV Project, developed by Riyadh Renewable Energy Co., starts operation. (Source: Saudi Arabia Energy) Abu Dhabi Future Energy Company ...

Norway's plan to implement a new renewable energy transition on Svalbard can become an exemplary project for Arctic energy transitions. Search for: ... Accessed on 19 January 2022 While Svalbard's human history dates back to over 400 years ago, it was only in the beginning of the twentieth century that permanent settlement was established ...

A smooth transition to renewable energy requires thoughtful management of a broader power portfolio, including on-site distributed energy resources (DERs) and procurement of off-site, grid-scale solutions. As sustainability efforts shift from casual to ...

As a student in Renewable Energy and Energy Efficiency, you will discover current renewable energy sources, such as hydrolic, eolic, photovoltaic, geothermal, solar thermal, concentrated solar power (CSP) and biomass; you will be oriented towards the search of new clean energy sources and the technologies they may imply, in order to design, implement and maintain ...

CrossBoundary Energy has secured a \$140m senior debt commitment from Standard Bank of South Africa to expand its renewable energy portfolio across Africa. The transaction underscores the role of commercial funders in supporting renewable energy solutions for businesses across the continent.
