Renewable power developer Lucid Energy Inc. and the City of Portland are set to begin construction of an in-pipe hydroelectric system. The project, which is scheduled for completion in June 2013, will use Lucid's "LucidPipe" generating units, which will be installed in a section of large-diameter, gravity-fed water pipeline.

South Africa: Energy intensity: how much energy does it use per unit of GDP? Click to open interactive version. Energy is a large contributor to CO 2 - the burning of fossil fuels accounts for around three-quarters of global greenhouse gas emissions. So, reducing energy consumption can inevitably help to reduce emissions.
