

Who is Intec energy solutions?

INTEC Energy Solutions opens a new office in Mauritius to Shape the future of energy in a dynamic, global environment. INTEC offers exciting opportunities to make a real difference. #teamintec © 2024 INTEC Energy. All Rights Reserved.

How much does a battery storage project cost in South Africa?

The commitment to battery storage solutions is becoming increasingly significant as South Africa faces ongoing energy challenges and seeks to augment the integration of renewable power sources. The estimated cost of the Mogobe BESS project stands at ZAR 3bn (US\$170m),with the primary funding -- about 90% -- sourced from non-recourse project debt.

Where are dispatchable energy & grid infrastructure located in South Africa?

The project is located near Kathu,Northern Cape,close to high power demand centres. "We are showing and supporting that dispatchable energy and grid infrastructure are cornerstones to the sustainability of South Africa's current and future energy system.

What is South Africa's just energy transition (jet)?

In 2021, South Africa's Just Energy Transition (JET) was officially launched during COP26. The International Partner Group (IPG), consisting of the European Union, France, Germany, the United Kingdom, and the United States, made a landmark commitment of US\$ 8.5 billion.

Why is the ITP programme important to South Africa?

Therefore, the ITP programme is a strategic response to South Africa's constrained fiscal position, Eskom's limited balance sheet, and the need for greater private sector involvement in the country's energy transition.

How does the jet support South Africa?

The JET supports South Africa's commitment to reducing emissions to 350-420 MtCO₂-eq by 2030,as outlined in the 2021 Nationally Determined Contribution (NDC). Achieving this goal will require an estimated ZAR 1.5 trillion in investments over five years,supported by international financial aid,private investors,and development institutions.
