

How does Suncore work?

SunCore's technology captures both solar light and indoor incandescent light, and uses it to charge your devices. The energy collected from these light sources is then used to charge your electronic devices. Because our charging products use light to charge your device, there's no need for wall plugs to keep a full charge!

What is Suncore's solar charging technology?

SunCore's solar charging technology can take your products to the next level, giving you a leg up on the competition, and your customers an incredible new experience; Solar that works! Our technology will keep your products charging and powered up using light from direct sun as well as indirect sun and under a cloud cover.

Does SunCore provide an anti-reflective coating?

SunCore has a proprietary Anti-Reflective Coating (ARC) that exhibits a complex non-planar structure on the top surface of the solar cell.

Powered by the sun so you can play music all day without having to recharge with EcoXgear's Sol Jam Waterproof Speaker integrated with SunCore Solar(TM) panel technology. Fully charged speaker runs for 15 continuous hours; Floating, IP67-certified waterproof and it's submersible; USB port for recharging cameras, devices and phones

El crédito FIDE te ayudará a eficientar los costos de energía eléctrica de tu hogar y/o empresa (comercial o industrial) generando energía con Paneles Solares.. El FIDE financia tu sistema sin ningún tipo de enganche o anticipo inicial, simplemente pagarás mensual o bimestralmente, depende tu tarifa, con cargo a tu recibo de luz.
