AFREC's energy balance 2020 show that the total primary energy supply was 170 ktoe. Biomass (firewood and charcoal) is used heavily for cooking purposes. There is no oil refinery. As a result, all petroleum products including jet fuel, gasoline and kerosene have to be imported. The fuel comes mostly from an Angolan supplier that has an effective monopoly.

Among our eco-friendly products, we offer MBE Series: a dedicated range of battery energy storage systems to reduce fuel consumption and carbon emissions. MBE Mobile Battery Energy units allow the storage of energy from multiple sources: generator, solar, or the grid. You can then redistribute that energy, at a later time, to a site that needs ...
