

What is Energy Vault?

Energy Vault actively works with the largest utilities and energy companies in the world to optimize our energy storage platform to improve flexibility and address our customers' evolving duration needs for both higher power and custom duration storage requirements.

How do I get a replay of Energy Vault?

The replay can be accessed by dialing 1-844-512-2921(domestic toll-free number) or 1-412-317-6671 (international) and providing the pin number: 13723042. Energy Vault is the creator of sustainable energy storage products that are transforming the world's approach to utility-scale energy storage for grid resiliency.

What is the market need for Energy Vault?

Clear Market Need for Energy Vault: Demand for clean energy is growing globally, with renewables expected to become 90% of total energy generation by 2050, according to a recent IRENA report.

How long will EVx last?

The EVx™ is forecasted to have a 35 year technical life, 80-85% round-trip efficiency and flexibility to address the need for both higher power and shorter duration storage applications while seamlessly supporting longer duration needs, in both cases at low levelized costs.

Who owns Energy Vault holdings (GWhr)?

Upon closing of the transaction, the combined company will be named Energy Vault Holdings, Inc. and is expected to be listed on the NYSE under the ticker symbols "GWHR" and "GWHR WS," respectively. The combined company will be led by successful entrepreneur Robert Piconias Chairman and Chief Executive Officer.

Energy Vault Holdings, Inc. (NYSE:NRGV) ("Energy Vault") is a leading provider of ultra long duration energy storage solutions. Energy Vault is a leader in the development and deployment of Hybrid Energy Storage Systems (HESS) to leverage the relative strengths of multiple technologies. Our dedicated research team has expertise encompassing a broad range of renewable generation, hydrogen, fuel cell, and battery technologies. Energy Vault is a leader in the development and deployment of Hybrid Energy Storage Systems (HESS) to leverage the relative strengths of multiple technologies.
