More than 75% of oil imports in Timor-Leste are used for electricity production across the country and around 90% of the sector's operating costs are fuel costs associated with power generation. The Government of Timor-Leste intends to replace part of this high-cost generation by more cost-efficient solar power.

In Timor-Leste, reliable access to renewable energy touches all parts of their daily life. Having solar energy means having better healthcare, better education, and it literally powers entrepreneurship and production activities in communities. | Tue, 10/10/2023

Current: The off-grid solar market in Timor-Leste is primarily driven by rural households and communities lacking access to the national grid. Demand is increasing as awareness of solar energy solutions grows. 5 The majority of the population in Timor-Leste relies on off-grid solutions for their electricity needs, such as diesel generators and solar home systems. 13

Sex. 27 de setembro de 2024, 17:23h. O Governo, em parceria com o Programa das Nações Unidas para o Desenvolvimento (PNUD) e com o apoio financeiro do Governo do Japão, lançou no dia 24 de setembro de 2024, a instalação de um sistema de energia solar no Instituto Nacional de Farmácia e Produtos Médicos (INFPM), anteriormente conhecido como SAMES.

modest-sized solar home system (for example, 50 watt-peak) may be justified in Timor-Leste on equity grounds. However, it is best in any program to require PV recipients to contribute some part of the system acquisition cost in order to instill a sense of ownership. Timor-Leste does not yet have an environment that would
