

Adamstown | Image credit: Balou46, CC BY-SA 4.0, via Wikimedia Commons Adamstown: The capital city and the island's only settlement, Adamstown is where you can meet the locals and learn more ...

Discovery of Pitcairn Island . Captain Philip Carteret first spotted Pitcairn Island in 1767 but couldn't land due to rough seas. He miscalculated its location, marking it miles away from its true position. Years later, Captain Cook showed some interest, but it wasn't until the Bounty mutineers arrived in 1790 that the island gained attention.

EnergyTech is focused on the mission critical and large-scale energy users and their sustainability and resiliency goals. These include the commercial and industrial sectors, as well as the military, universities, data centers and microgrids. The C& I sectors together account for close to 30 percent of greenhouse gas emissions in the U.S.

Various forms of evidence show the earliest settlers of the Pitcairn Islands were Polynesians who occupied Pitcairn and Henderson for several centuries until the islands were abandoned: Henderson most likely before the 16th century and Pitcairn in the 17th or early 18th century. The islands were uninhabited when they were discovered by Europeans.

Pitcairn's authorities have launched a renewable energy project designed to replace fossil fuels with solar energy. The goal is to replace 95% of the current diesel consumption on Pitcairn Island (75,000 liters per year) with ...
