

What is the energy policy of Trinidad and Tobago?

The Government of Trinidad and Tobago is currently developing a national energy policy green paper that recognises renewable energy's (RE) combined with energy efficiency (EE) and utilisation of compressed natural gas in the transportation sector, inter-alia, as important strategies for the promotion of sustainable development of the nation.

Where does Trinidad and Tobago get its energy from?

This page is part of Global Energy Monitor's Latin America Energy Portal. Trinidad and Tobago derives almost all of its energy from domestically produced hydrocarbons, especially natural gas.

Does Trinidad and Tobago have fossil fuel resources?

Trinidad and Tobago has abundant local fossil fuel resources, but is taking steps to prepare the societal, legal, regulatory, and economic foundations necessary to support renewable energy and energy efficiency technologies.

Who owns the energy in Trinidad & Tobago?

In 1994, it divested from its generation holdings on the larger island of Trinidad and now purchases energy from three Independent Power Producers (IPPs): the Power Generation Company of Trinidad and Tobago, which purchased the former T&TEC-operated plants and presently controls 1,386 megawatts (MW) of gas-fired capacity across

Does Trinidad & Tobago need energy subsidies?

Unlike many island nations, Trinidad and Tobago has significant oil and natural gas reserves and is a net exporter of these fuels. However, subsidies for domestic energy consumption have created a fiscal burden on the government that could be reduced through the expansion of alternative transportation fuels, energy efficiency, and renewable energy.

Who regulates the energy sector in Trinidad & Tobago?

The MEEI (Ministry of Energy and Energy Industries) manages Trinidad and Tobago's oil, gas, and mineral resources. The MEEI is responsible for monitoring, controlling, and regulating the country's energy and mineral sectors. The Regulated Industries Commission also serves as a regulator for the energy sector.

The race is on to reduce greenhouse gas emissions from Trinidad and Tobago's largest emitting sectors by 2030. Already, 40 carbon-reducing initiatives have either been launched or are in the works as the country steps up its efforts to meet its Nationally Determined Contribution under the global climate treaty known as the Paris Agreement ...
