Overview Tuvalu's carbon footprint Tuvalu Energy Sector Development Project (ESDP) Commitment under the Majuro Declaration 2013 Commitment under the United Nations Framework Convention on Climate Change (UNFCCC) 1994 Solar energy Wind energy Filmography Renewable energy in Tuvalu is a growing sector of the country's energy supply. Tuvalu has committed to sourcing 100% of its electricity from renewable energy. This is considered possible because of the small size of the population of Tuvalu and its abundant solar energy resources due to its tropical location. It is somewhat complicated because Tuvalu consists of nine inhabited islands. The Tuvalu National Energy Policy (TNEP) was formulated in 2009, and the Energy Str...
