

Will the US be able to make Turkish solar panels?

The company said its plan was to produce 500 MW of gallium-doped monocrystalline passivated emitter, rear contact silicon panels and tunnel oxide passivated contact (TOPCon) panels in 2023, before expanding to 1 GW in 2024. It's clear that the United States has potential for Turkish module manufacturers.

Where is Europe's largest vertically integrated solar module manufacturer based?

Photo: pv magazine/Matthew Lynas Europe's largest vertically integrated module manufacturer is based in Türkiye. The continent's largest solar array, the 1.35 GW Kalyon Karapınar PV power plant, is also found there. This did not happen by accident. It's a pivotal time for solar in Türkiye.

Is the next big step for PV Manufacturing in Türkiye?

The company also plans to produce its own wafers in the near future. Elin Energy brand Sirius and Schmid Penkintas are pursuing domestic cell and wafer production ambitions too. Onshoring these key stages in the solar module supply chain looks like the next big step for PV manufacturing in Türkiye.

How much does a PV system cost in Türkiye?

In summer 2023, a new 10-year feed-in tariff (FIT) of TRY 1.06 (\$0.03)/kWh was introduced for PV systems installed between July 1, 2021, and Dec. 31, 2030. Projects that use PV modules made in Türkiye get even more support, benefiting from a further five-year FIT of TRY 0.288/kWh.

Which country has the largest solar array?

The continent's largest solar array, the 1.35 GW Kalyon Karapınar PV power plant, is also found there. This did not happen by accident. It's a pivotal time for solar in Türkiye. In the first two months of 2024, the country added 1.1 GW of new generation capacity, equivalent to around half of its PV installation total for 2023.

Is the US a land of opportunity for Turkish manufacturers?

For large-scale Turkish manufacturers such as Kalyon PV, the United States is the land of opportunity. The Uyghur Forced Labor Prevention Act keeps competition from China at bay, while the incentives supporting green investment included in the US Inflation Reduction Act (IRA) present tantalizing opportunities.
