

Uninterrupted power supply for home Cook Islands

Do I need a travel adapter for a Cook Islands electrical outlet?

Well, the Cook Islands has Type I (i) power plugs with 240v AC 50Hz, so if your appliances don't fit the electrical outlets and/or require a different voltage or frequency, then you're going to need a travel adapter and maybe even a convertor. Makes sense? If not, this in-depth guide on the Cook Islands electrical outlet will make it so.

What type of plugs and sockets are in the Cook Islands?

In the Cook Islands, the power plugs and sockets are Type I. It has three flat pins: two angled ones and one straight one. Note that some appliances don't have that straight bottom pin but they are still compatible with the Cook Islands electrical outlets.

What is the electrical current in Rarotonga & the Cook Islands?

In Rarotonga and the Cook Islands, the electric current is 240v 50Hz. This means that the electrical current is 240 volts with 50 cycles per second. If your country of origin uses a voltage that ranges between 220v and 240v, then you will be able to use your appliances and gadgets in the Cook Islands with no problem at all.

What is an uninterruptible power supply?

As the name implies, an uninterruptible power supply is just that: uninterruptible. This means power surges, blackouts, brownouts, and any other power-related problems won't result in your UPS going offline. The UPS will only turn off if its battery is emptied, it's turned off manually, or it is physically destroyed by an outside force.
