

# United Arab Emirates johnson matthey battery system

Where are Johnson Matthey batteries made?

Headquartered in Dundee, Scotland and with operations in Poland and sales offices in Coventry, England, Johnson Matthey Battery Systems produces batteries for all types of electric vehicles including urban delivery vehicles and high performance sports cars.

Who is Johnson Matthey battery systems?

Johnson Matthey Battery Systems supplies lithium-ion battery technology for cordless power tools, such as cordless hedge trimmers and lawn mowers. Its customers include several major producers of professional power tools, including Robert Bosch GmbH.

How many Watts Does a Johnson Matthey battery have?

Johnson Matthey Battery Systems produces a range of batteries from as little as 1 or 2 watt up to 180 kWhr, and from 2.4 Volts to 614 Volts. Johnson Matthey Battery Systems' battery packs are subjected to a testing regime that meets industry standards.

What happened to Axion battery systems?

Axon rebranded as Johnson Matthey Battery Systems in August 2013. In January 2018, Johnson Matthey Battery Systems was acquired by Cummins. Johnson Matthey Battery Systems has worked with McLaren Automotive to develop an advanced lithium-ion battery for the McLaren P1, a limited production plug-in hybrid supercar.

Why did Johnson Matthey exit battery materials?

The transaction is expected to complete over Summer 2022. Liam Condon, Chief Executive of Johnson Matthey, says: "Johnson Matthey made the decision to exit Battery Materials due to insufficient returns, increased commoditisation of battery materials combined with the need for very high capital investments to remain competitive.

What happened to JM batteries?

Johnson Matthey announced a £217m (US\$272m) loss following impairment charges against the sale of its battery business. The business was sold to EV Metals for £50m in cash and a minority stake in the London-listed firm.

Issued by: Johnson Matthey Plc 5th Floor, 25 Farringdon Street, London, EC4a 4AB, United Kingdom .
