Accelerate technology and market readiness of innovative energy storage technologies. Training, mentoring, access to infrastructure and investments for regional energy storage companies. Workforce Development

Last year, Schumer helped the Binghamton University-led Upstate New York Energy Storage Engine win the esteemed competition in its inaugural year, bringing \$15 million in federal funding immediately, with up to \$160 million total over the life of the program from the NSF to supercharge growth and cutting-edge research in battery development and ...

Lead organization: Binghamton University. Region of service: Southern Tier of New York . Competitive advantage: The Southern Tier of New York is home to a robust legacy of American manufacturing and is now transforming itself into the nation's advanced battery research hub.This engine is anchored by Binghamton University, the home university of Stanley Whittingham, ...

July 24, 2024 - Binghamton University and its New Energy New York program partners are once again receiving federal dollars to create a battery and energy storage ecosystem in Upstate New York. U.S. Senate Majority Leader Charles E. Schumer announced Wednesday that the NENY project will receive a \$500,000 Consortium Accelerator Award through the federal Tech Hubs ...

The initiative led by Binghamton University and its New Energy New York (NENY) coalition of partners -- NSF Engines: Upstate New York Energy Storage Engine -- will get \$15 million for the first two years of the project and up to \$160 million over 10 years. The grant was announced by U.S. Senate Majority Leader Chuck Schumer during a visit to ...

Qiao directs the Center for Solid-State Electric Power Storage, one of three National Science Foundation (NSF)-supported collaborative research energy storage centers. That center played a huge part in the University's recent naming as a core partner in the Upstate New York Energy Storage Engine, one of 10 inaugural projects funded by the NSF ...

The Upstate New York Energy Storage Engine is one of 10 inaugural engines funded by the U.S. National Science Foundation (NSF) and established under the CHIPS and Science Act of 2022. The program is one of the largest investments in place-based innovation in U.S. history, Binghamton University said.

The Upstate New York Energy Storage Engine (U.S. National Science Foundation [NSF] award 2315695) is dedicated to building a comprehensive battery and energy storage ecosystem in Upstate New York by fostering innovation, technology translation, workforce development, and inclusive collaboration to support U.S. independence and leadership in ...
