"Village Energy fixed the PV system in the restaurant Palm Garden in Gulu where I am working. The old system in place had some serious issues of safety and energy efficiency, but Village Energy professionals solved them, providing us with a renovated, clear, safe and reliable PV system which is now powering most of our appliances."

Our mission is to accelerate the energy transition for a green and sustainable future. Customers are consumers, producers and storers of energy. By connecting their local energy resources to the energy system, Village Energy helps utilities to integrate and manage them and empower customers for a greener future.
