

Does WECO 5K3 dual HV/LV 48V lithium battery pack support 5G?

Weco 5K3 Dual HV/LV 48v lithium battery pack has dual BMS to be used in high and low voltage. It has more than 7800 100% discharge cycles. Through its Wi-Fi accessory we can monitor via app and it supports 5G. We can expand up to 40 batteries to produce 212 kWh useful in 48 volts and up to 561 kWh in high voltage.

How many watts can a WECO 5K3 battery charge?

Charge and discharge intensity 1C: Weco lithium battery allows charging and discharging at 1C, so with a single Weco 5k3 lithium battery we can charge and discharge more than 5500Wh(110Ah) nominal. In just 1 hour we can carry out a 90% charge and we can use 5kw power inverters with a single battery without having warranty problems.

How do I install the WECO 5K3 Universal lithium battery?

The weco 5k3 universal lithium battery is supplied as standard with accessories to be installed on the wall by fixing it to the wall (recommended for one unit only) or superimposed (recommended for 2 or more units) using the brackets included in the package. It is not necessary to purchase a cabinet or an external accessory for its assembly.

What are the advantages of a WECO 5K3 battery?

Operation at extreme temperatures: WeCo 5K3 battery modules can operate between 10°C and 55°C . Active equalizer: Another great advantage of this battery over the competition is its active equalizer, which ensures a constant balance of cells and prevents loss of power.

What is the capacity of a WECO lithium battery?

The WeCo lithium battery with a capacity of 5.3 kWh is also suitable for smaller solar applications of island systems and also as battery storage for hybrid photovoltaic power plants (HPPP). WeCo batteries are based on LiFePO₄ technology, lifetime - 8000 cycles.

Can I copy a datasheet or manual from WECO?

No part of this document from WECO can be copied or reproduced without written permission. Always ask WeCo for the most recent datasheet and manual before purchasing. All data is subject to change without prior notice; WeCo designs and produces lithium batteries equipped with the highest quality components.

The WeCo lithium battery with a capacity of 5.3 kWh is also suitable for smaller solar applications of island systems and also as battery storage for hybrid photovoltaic power plants (HPPP). WeCo batteries are based on LiFePO₄ ...

The Weco ESS is a modular, robust and durable lithium-ion energy storage unit. An integrated BMS monitors

all relevant parameters and transmits data and alarms. 100 Ah, 48 VDC, 5200 Wh, voltage range 50,5...56,0 VDC, charge current 100 A, discharge current 100 A, cycles 7000, lithium battery LiFePO4, interface (CAN, RS232, RS485, Bluetooth ...

The WeCo modular lithium battery is one of the most advanced on the market for storage in solar pv energy systems. The WeCo battery is expandable and allows to connect from 1 module of 5.3kWh to 5 modules in parallel or even to add 5 clusters of 5 modules each thanks to the WeCo HUB to reach up to 132.5kWh. Key Features: High & Low Voltage.

Batería WeCo 5K3 XP con su BMS integrado y 5.3 kWh totales de energía. Un conector rígido de 360A para realizar el conexionado en montaje apilado. Doble cable de 25mm de 2 metros de longitud rojo y negro para el conexionado de baterías a inversor. Juego de soportes para poder realizar la instalación mural si se desea.

La nueva batería de litio de 48V y 5,3kWh Weco 5K3 XP WiFi tiene la capacidad de trabajar tanto en bajo como en alto voltaje, y para ello dispone de un doble BMS. Tiene más de 7800 ciclos de descarga al 100%. Además, a través de su WiFi y Bluetooth integrados podemos monitorizar vía app, soporta 5G y también monitorizar a través de internet el estado de la batería.
