Around here, the price of used panels is about 50 cents a watt on Craigslist, but with local pickup. About the same as new panels from a discount supplier, but you have to pay shipping with new. If I was buying 12kw of panels, I would buy ...

Planning to go solar with a 8-9KW grid tied system. Got quotes from a few companies in my area, one of which was Solar Wholesale, which is a DIY kit. The price difference was pretty small, less than \$1500 for the same size system between Solar Wholesale and a local company which does the install and everything, so it doesn't make sense to DIY.

Our solar panel kits for home are easy for you or a contractor to install. Each solar panel kit comes with solar panels, grid-tie inverters and mounting hardware and is customized to your energy needs and home's unique specifications. Take our ...

A recent study found that solar panels are viewed as upgrades, just like a renovated kitchen or a finished basement, and home buyers across the country have been willing to pay a premium of about \$15,000 for a home with an average-sized solar array. Additionally, there is evidence homes with solar panels sell faster than those without.
