

Could xerotech's Hibernium battery system be used in construction equipment?

Technology company Xerotech has launched a modular battery platform, which could potentially be used across an entire range of electrically-powered construction equipment. Combining seven variants of modules with a choice of battery cell chemistry, the Hibernium system can range in power from 15kWh up to 300kWh, rising in 5kWh increments.

What is xerotech patented technology?

Xerotech's patented technology represents a major shift in the safety and performance of battery systems. battery packs are among the most flexible and configurable systems in the market today. Among the most flexible and configurable systems In the market today.

Does xerotech offer electrification of heavy-duty machinery?

The electrification of heavy-duty machinery becomes available to every OEM and Integrator. Xerotech's patented technology, Xerotherm™, is a game changer in battery system safety and performance, with a world-leading solution powering our thermal management and safety technology.

Who makes xerotech batteries?

That challenge is what battery manufacturer Xerotech aims to solve. Based in Claregalway, in Ireland, it was founded by CEO Dr Barry Flannery in 2015, and the company now supplies packs to many off-highway EV OEMs.

Can xerotech's modular battery system revolutionize the construction equipment market?

Combining seven variants of modules with a choice of battery cell chemistry, a new "turnkey" modular battery system from technology firm Xerotech is promising to revolutionize the construction equipment market by offering manufacturers a flexible, scalable battery pack that can go in -- well, just about everything! Image courtesy Xerotech.

What is xerotech Hibernium™?

Xerotech's patented technology, Hibernium™, represents a complete step-change in the safety and performance of battery systems. With our Hibernium™ battery system platform designed for off-highway vehicle OEMs. There's an industrial revolution taking place right now, as off-highway OEMs race to electrify their products.

Xerotech is a leading manufacturer of advanced lithium-ion battery systems for industrial and commercial applications. Xerotech's Hibernium™(TM) is the first battery system platform for low-volume high-diversity customers. Utilizing its patented safety and thermal management technology, Xerotherm™(TM), Xerotech enables the electrification of ...

Xerotech bring a multilayered approach to battery safety, ensuring our batteries are amongst the safest solutions available on the market today. Thermal propagation prevention and fire suppression are integrated as standard. "Our battery systems lower the risk of fire in a more holistic way than in thermal engines," says Flannery.

The mining industry, an early adopter of battery electrification, is leading the way in transitioning heavy-duty operations toward sustainable practices. Electric Power Conversion Australia (EPCA), located in Perth, recently electrified a CAT 777 100-ton mining truck using a Xerotech Battery System. Known as the "Green Machine," this ...

Xerotech's scalable battery platform makes it an ideal candidate for powering such equipment and taking on what it is possibly the off-highway market's biggest challenge. Our world-leading safety solution is matched with operability across a wide temperature spectrum, ensuring peak performance in the toughest of conditions.

Recommended Safe Handling of Xerotech Battery Packs . Xerotech takes specific care when designing, manufacturing, packing and shipping battery systems. These best practice tips, while not exhaustive, help ensure a safe and productive EV program. Safe Storage: When storing batteries, several factors should be considered for safety and battery life.

Xerotech, a leader in battery pack technology for heavy-duty non-road mobile machinery (NRMM) is to join forces with new battery cell technology developer Innolith to launch the industry's first battery packs for electrification of a wide range of applications where fire safety is paramount. Xerotech visit SubSpace Energy Hub

Hibernium &#174; battery modules feature market's only fire suppression system that does not require active monitoring systems. It is designed as an always-on quick acting system that extinguishes fire in-situ, on a cell level. Battery cell thermal events are suppressed within seconds.

Xerotech, a leading European battery pack manufacturer has formed a partnership with Meta System, a Tier 1 supplier of automotive electronic systems, to help expand its offering and provide integrated battery systems to the NRMM market. ... Xerotech's Hibernium(TM) platform is the market's first battery system platform developed for low ...

Meet the disruptive battery technology that is powering the electrification of everything else. Xerotech's patented technology, Hibernium &#174;, represents a complete step-change in the safety and performance of battery ...

Technology company Xerotech has launched a modular battery platform, which could potentially be used across an entire range of electrically-powered construction equipment. Combining seven variants of modules with a ...

About Xerotech. Xerotech, founded in 2015 and headquartered in Ireland, is a leading manufacturer of advanced lithium-ion battery systems for use in industrial and commercial applications. Xerotech's Hibernium™ platform is the market first battery system platform developed for low-volume high-diversity customers.

That's why we want to make it as easy as possible to find a bespoke battery pack to power your application. ... providing an astonishing up to 12 MWh of energy in a single system. ML12 (511 mm wide packs) ML18 (649 mm wide packs) ML24 (787 mm wide packs) ML30 (925 mm wide packs) ... EPCA and Xerotech are transforming mining with the ...

Supporting the top-level engineering that goes into a Xerotech battery is an equally awesome marketing team! + Read More We are hiring a further 100 new employees at our Galway facility to meet global demand ... For Tech Tuesday #16 we look at how over and under voltage risk is mitigated in our battery systems. + Read More Xerotech Celebrates ...

An In-Depth Look at Xerotech's Battery System 01/12/2023 In an extensive interview with E-Mobility Engineering, Xerotech CEO Dr Barry Flannery delves into all there is to know about our battery systems. + Read More How Thermal Management Systems Ensure Safety & ...

Xerotech, a world leader in advanced battery systems for non-road mobile machinery applications, has announced that it plans to hire over 100 new employees to meet the growing demand for its configurable battery pack ...

Xerotech, a leading European battery pack manufacturer has formed a partnership with Meta System, a Tier 1 supplier of automotive electronic systems, to help expand its offering and provide integrated battery systems to ...
