

Will Tauhei solar farm be a big project in New Zealand?

Following this, construction was also expected to commence this year. Harmony Energy director Pete Grogan said, in a statement, the Tauhei Solar Farm would be a project that Waikato and the whole of New Zealand could be proud of.

What is New Zealand's largest solar farm?

(Source: Supplied) Plans have been revealed for what's believed to be New Zealand's largest solar farm. The joint British-New Zealand venture has consent to build the 182ha Tauhei Solar Farm near Te Aroha in Waikato. Expected to start construction this year, it aims to provide power for the equivalent of 35,000 homes.

Are grid-scale solar farms a key role in New Zealand's economy?

Speak with one of our experts. Utility or grid-scale solar farms are set to play a key role in the electrification of New Zealand's economy. Although few farms are currently operating, grid-scale solar accounts for approximately half of the new generation interest in Transpower's pipeline and makes up the largest share of advanced projects.

How many solar panels can a New Zealand solar farm produce?

Subject to obtaining all necessary consents and approvals, the solar farm's approximately 330,000 solar panels would generate more than 270 GWh per year, enough renewable electricity to supply the equivalent of approximately 35,000 New Zealand homes.
